ALEXANDRA MIRON

Creative Product Marketing Manager · Story, AI Systems & Measured Growth

Be'er Sheva, Israel • +972 55-269-1864 • miron.alexandrra@gmail.com • linkedin.com/in/alexandramiron8 • portfolio-alexmir8.vercel.app

ABOUT ME

I turn ideas into things that work, end to end — the creative, the funnel, the touchpoints, the system that ships them, and the numbers that say whether it landed. That loop is the work I want.

7+ years on it: landing pages, quiz flows, objection handling, and video from the first trend board to the cut that performed. I built the AI content infrastructure my team writes on, and the agent pipeline that carries a page from spec to production — I know what sits underneath it and where it breaks. Creatives, developers and analysts are one conversation for me, not three: I came up through the craft and learned the technical side by building.

I run the UX research, build the CJM, find the gaps and run the A/B tests. I'm not interested in work that only looks good, or in work that only converts — the good stuff is where those are the same decision.

CORE STRENGTHS

- **Create:** Positioning · Messaging architecture · Landing page & quiz flows · UX microcopy and design · CTA & objection handling · Ad creatives — trend research, performance-creative iteration, storytelling
- **Ship & AI Infra:** Technical specs & dev tasks · Release scope, QA gates and production handoffs · Agent pipeline carrying a page from spec to live · Retrieval-Augmented Generation (RAG) over tone-of-voice, content and design-system knowledge bases · Claude Code, Python
- **Measure:** Event specification & telemetry validation · Analytics instrumentation (GA4, Tableau) · A/B testing with statistical significance · Cohort analysis · Funnel analytics and optimization
- **Act & Lead:** UX research and depth interviews · Reading results into the next version · Competitor teardowns and audience mining · Prioritizing an unbriefed roadmap · Led a distributed creative team of 5 · Process design from ad-hoc to documented workflow

WORK EXPERIENCE

TripleTen | Nebius Group

EdTech & Consumer Digital, U.S. market | 01/2022 – Present

Growth Product Manager | *01/2024 – Present*

- **Claude Agent for Web Page Delivery — Built & Owned.** Built the agent pipeline that carries a page from spec to live on its own — build, a QA gate that blocks anything failing brand or functional review, telemetry validation, design-system token enforcement, then automated deploy. **Spec-to-production dropped from 14 days to 3, build cost ~10x.**
- **AI Content Infrastructure — Owner / Lead.** Built the knowledge bases my team writes on: tone of voice, permitted and forbidden phrasings, content and design-system rules, which a copywriting agent retrieves from before generating a line.
- **Story & Conversion.** Ran 10 depth interviews showing respondents the live ad creative beside the landing page, and found the value proposition buried below the fold — a framing problem, not a design one. Rebuilding around decision clarity lifted **conversion to qualified lead by 18.5% (p < 0.01)**.
- **Flagship Quiz — Owner.** Owned the company's main acquisition funnel end-to-end. Seven A/B tests on entry micro-commitments, visual hierarchy and CTA framing took **start rate from 41% to 48%**, with no loss of qualification.
- **Pod Leadership & Process.** Led a 5-person distributed pod — design, copy, visual, working remotely across time zones — on a Kanban board, owning the timeline and project plan. Replaced ad-hoc production with a documented workflow: intake, priorities, handoffs and QA gates. When the creative was done I wrote the analytics and development tasks and stayed with the build through delivery.

Product Marketing Manager — Website & Web Funnel Owner | *01/2022 – 01/2024*

- **Video & Performance Creative — Lead.** Owned video end-to-end: trend research, running the brainstorms, writing the scripts, casting the actors, briefing the editors, and iterating on the creatives that worked. The whole chain, from the idea to the cut that performed.
- **Website Ownership — 01/2022 to Present, and Copy Across It.** Owned the company website as a product surface across both roles, and wrote the copy layer on it — landing pages, quiz copy, UX microcopy, CTA sections, trust blocks and objection-handling content.
- **Production Leadership.** Led two-week sprints across design, copy and development; owned page launches, QA and handoffs, and drove the site's migration from Tilda to WordPress.

Renaissance Life Insurance

FinTech / InsurTech, Moscow | 05/2019 – 07/2021

Copywriter → Project Manager, Content & Marketing / Product Owner

- **From writing to owning the message.** Joined as a copywriter and grew into leading content and marketing projects — what the company said, to whom, and why.
- **0-to-1 storytelling in a category that avoids the subject.** One of two product owners taking two insurance products to market, including a first-of-its-kind life insurance offer for people with HIV — a proposition that lived or died on how it was framed.
- Launched the company blog end-to-end, from content planning through publication automation; planned email marketing and rebranding campaigns. Ran 20+ hypothesis-driven experiments on product, messaging and funnel.

EDUCATION & CERTIFICATIONS

- **B.A. Communications & Media** — Moscow State Pedagogical University | 2014–2018
- **Practical Software Development (Java & Python)** — Masa / Tel Ran, Israel | 2025
- **Business Intelligence Professional** — Google | 2026 · **AI Essentials Specialization** — Google | 2026
