ALEXANDRA MIRON

Product Manager · B2C Acquisition Funnels & Experimentation

Be'er Sheva, Israel · open to Tel Aviv area & hybrid • +972 55-269-1864 • miron.alexandrra@gmail.com • linkedin.com/in/alexandramiron8 • portfolio-alexmir8.vercel.app

ABOUT ME

Growth Product Manager with 7+ years owning B2C acquisition funnels end-to-end. Lifted conversion to qualified lead by 18.5% (p<0.01) on paid social and quiz start rate from 41% to 48% through structured experimentation. Led migration of funnel infrastructure to AI-assisted delivery, replacing a five-figure monthly agency bill with a software subscription and cutting spec-to-production from 14 days to 3.

WORK EXPERIENCE

TripleTen | Nebius Group

EdTech & Consumer Digital, U.S. market | 01/2022 – Present

Growth Product Manager | *01/2024 – Present*

- **Paid Acquisition Funnel — Product Owner.** Ran 10 depth interviews pairing live ad creative with the landing page; found the value proposition buried below the fold and rebuilt the landing experience around decision clarity without loosening the qualification threshold. **+18.5% conversion to qualified lead on Meta and TikTok traffic (p < 0.01).**
- **Flagship Career Quiz — Product Owner.** Owned the core B2C acquisition funnel end-to-end. Shipped 7 structured A/B tests on entry micro-commitments, visual hierarchy and CTA framing: **start rate 41% → 48% (+7.0pp absolute)**, with no drop in completion or qualification.
- **Lead Qualification & Pre-Scoring.** Job seekers wanting immediate employment were flooding the funnel and consuming sales capacity. Built Boolean intent flags into quiz logic and a pre-scoring formula that fed ad campaign optimization and routed misaligned users to automated nurture. **+14% qualified leads and roughly 8 sales hours freed per week.**
- **Claude Agent for Web Page Delivery — Built & Owned.** Built the agent pipeline that carries a page spec to production on its own: build, a QA regression gate that blocks any failing release, telemetry and data-layer validation, design-system token enforcement, Core Web Vitals, then automated deploy with CRM sync into HubSpot. **Page production went from a five-figure monthly agency bill to a software subscription; spec-to-production 14 days → 3 days**, sustaining 2–5 A/B tests per month across up to 5 concurrent funnels. The automation is what made that test volume possible.
- **Pod Leadership & Process.** Led a 5-person distributed production pod (design, copy, visual) remotely across time zones, through two-week cycles of planning, grooming and retrospectives. Replaced ad-hoc production with a documented workflow — intake, priorities, handoffs, QA gates — and aligned R&D, engineering and BI so hypotheses were prioritized by business ROI against monthly targets. **The full release cycle, approvals and queue included, went from 3–4 weeks to days.**

Product Marketing Manager — Website & Web Funnel Owner | *01/2022 – 01/2024*

- **Website Ownership — 01/2022 to Present.** Owned the company website end-to-end across both roles as a product surface: **60 pages serving roughly 1M users**, built separately for organic and for each paid channel. Page roadmap, requirements, release scope, QA and production handoffs, as the single point of decision on what shipped. Wrote the specs and led two-week sprints across design, copy, development and outside vendors.
- **Lead-Generation Funnels — Owner.** Ran **5 acquisition funnels and 6–7 landing pages in parallel**, each carrying a different hypothesis, and owned the copy layer end-to-end — landing pages, quiz copy, UX microcopy, CTA and objection-handling sections.
- **Platform Migration & Development.** Led the site's migration from Tilda to WordPress end-to-end across internal teams and agencies — **all 60 pages** — and led the development process itself, specifying, building and shipping pages with Claude.

Project Manager / Product Owner, Acceleration Team

Renaissance Life Insurance · FinTech / InsurTech, Moscow | 05/2019 – 07/2021

- **0-to-1 Product Delivery.** One of two product owners taking two insurance products from concept to launch — an early fully-online whole life product in the Russian market, and a first-of-its-kind offer for people with HIV. **Both entered the company's core line-up and were distributed through banks as part of mortgage approval.**
- Ran 20+ hypothesis-driven experiments on product, messaging and funnel, partnering with development on the client account funnel; built landing pages in Figma and Tilda/Wix/Webflow; delivered digital-communication training to 70–80 employees.

CORE COMPETENCIES

- **Acquisition & Experimentation:** End-to-end ownership of B2C acquisition funnels — quiz, landing and lead-gen flows · A/B Testing & Statistical Significance · CRO · Funnel Optimization · Hypothesis Design · Cohort Analysis
- **Product Ownership:** PRDs & Specs · User Stories · Backlog Prioritization · CJM · Lead Scoring & Routing Logic · Release Scope & QA Gates · Website Ownership as a Product Surface
- **Cross-Functional Delivery:** Close day-to-day work with development — R&D, engineering, BI and analysts, design and copy · Specs engineers can build from · SQL and Python for own queries and prototypes · Production management — intake, priorities, handoffs, two-week sprints · Briefing and managing agencies, freelancers and vendors
- **AI & Automation:** AI agents for faster testing — agent pipelines that build, QA and ship pages on their own, cutting the test cycle from weeks to days · GenAI Workflow Architecture (Claude Code, Lovable) · Retrieval-Augmented Generation (RAG) over design-system and content knowledge bases · Agent-Based QA Gates & LLM Output Validation · Prompt Engineering · Python & Java
- **Research & Psychology:** User Interviews · Usability Testing · Consumer psychology and behavioral design — cognitive biases, decision framing, objection handling · Event Specification & Telemetry QA · SQL · GA4 · Tableau

EDUCATION & CERTIFICATIONS

- **Practical Software Development (Java & Python)** — Masa / Tel Ran, Israel | 2025
- **B.A. Communications & Media** — Moscow State Pedagogical University | 2014–2018 · Thesis on cognitive biases and manipulation in media
- **Business Intelligence Professional** — Google | 2026
- **AI Essentials Specialization** — Google | 2026
