ABOUT ME

Product marketer and writer who started as a copywriter and never left the craft. Seven years turning product capability into stories that move people — landing pages, quiz flows, objection handling, and video from the first trend board to the cut that performed.

I think in systems as much as in stories. I built the AI content infrastructure my team writes on — knowledge bases of tone of voice, permitted and forbidden phrasings and design-system rules that a copywriting agent retrieves from before writing a line. I don't only write the prompt; I know what sits underneath it, what building it takes, and where it breaks in production. Creatives, developers and analysts are three conversations I hold at once — which is usually where content and implementation stop fighting each other.

And I measure what I write: a research-driven rebuild lifted conversion to qualified lead 18.5% ($p < 0.01$). I'm not interested in work that only looks good, or in work that only converts — the good stuff is where those are the same decision.

CORE STRENGTHS

- **Story & Copy:** Product positioning · Landing page & quiz copy · UX microcopy · CTA & objection handling · Messaging architecture · Campaign copy
- **Video & Creative Production:** Trend research · Scripting · Casting · Editor briefs · Performance-creative iteration · Pod leadership (design, copy, visual)
- **AI Content Systems:** Retrieval-Augmented Generation (RAG) over tone-of-voice, content and design-system knowledge bases · Reusable prompt systems · Agent-based quality gates · Claude Code, Lovable
- **Audience & Intelligence:** Depth interviews · Competitor teardowns · Audience mining (Reddit, LinkedIn communities, industry reports) · Willingness-to-pay validation
- **Proof:** A/B testing & statistical significance · CRO · Funnel analytics · GA4 · Tableau

WORK EXPERIENCE

TripleTen | Nebius Group

EdTech & Consumer Digital | 01/2022 – Present

Growth Product Manager | 01/2024 – Present

- **AI Content Infrastructure — Owner / Lead.** Built the system my team creates on: knowledge bases holding tone of voice, permitted and forbidden phrasings, content and design-system rules, which a copywriting agent retrieves from before generating — paired with agent checkpoints that block anything failing brand or functional review. **Concept-to-live dropped from 14 days to 3, build cost ~10x.**
- **Story & Conversion.** Ran 10 depth interviews showing respondents the live ad creative beside the landing page, and found the value proposition buried below the fold — a framing problem, not a design one. Rebuilding around decision clarity lifted **conversion to qualified lead by 18.5% ($p < 0.01$).**
- **Flagship Quiz — Owner.** Owned the company's main acquisition funnel end-to-end. Seven A/B tests on entry micro-commitments, visual hierarchy and CTA framing took **start rate from 41% to 48%**, with no loss of qualification.
- **Pod Leadership.** Led a 5-person production pod — designers, copywriters, visual creators — through two-week sprints, grooming and retrospectives; aligned R&D, engineering and BI so ideas were prioritized against monthly targets.

Product Marketing Manager — Website & Web Funnel Owner | 01/2022 – 01/2024

- **Video & Performance Creative — Lead.** Owned video end-to-end: trend research, running the brainstorm, writing the scripts, casting the actors, briefing the editors, and iterating on the creatives that worked. The whole chain, from the idea to the cut that performed.
- **Copy Across the Funnel.** Owned the company website as a product surface and wrote the copy layer on it — landing pages, quiz copy, UX microcopy, CTA sections, trust blocks and objection-handling content.
- **Production Leadership.** Led two-week sprints across designers, copywriters, developers, actors and editors; owned page launches, QA and production handoffs, and drove the site's migration from Tilda to WordPress.

Renaissance Life Insurance

FinTech / InsurTech, Moscow | 05/2019 – 07/2021

Copywriter → Project Manager, Content & Marketing / Product Owner

- **From writing to owning the message.** Joined as a copywriter and grew into leading content and marketing projects — what the company said, to whom, and why.
- **0-to-1 storytelling in a category that avoids the subject.** One of two product owners taking two insurance products to market, including a first-of-its-kind life insurance offer for people with HIV — a proposition that lived or died on how it was framed.
- Launched the company blog end-to-end, from content planning through publication automation; planned email marketing and rebranding campaigns. Ran 20+ hypothesis-driven experiments on product, messaging and funnel.

EDUCATION & CERTIFICATIONS

- **B.A. Communications & Media** — Moscow State Pedagogical University | 2014–2018
- **Practical Software Development (Java & Python)** — Masa / Tel Ran, Israel | 2025
- **Business Intelligence Professional** — Google | 2026 · **AI Essentials Specialization** — Google | 2026
