ALEXANDRA MIRON

Creative & Growth Lead · Teams, Process and AI Systems

Be'er Sheva, Israel • +972 55-269-1864 • miron.alexandrra@gmail.com • linkedin.com/in/alexandramiron8 • portfolio-alexmir8.vercel.app

ABOUT ME

I lead the people and the process that get creative work shipped. Over 7+ years I've run production pods and turned broken workflows into documented ones. I led a 5-person distributed pod through two-week cycles, replaced ad-hoc production with intake, priorities, handoffs and QA gates, and cut spec-to-production from 14 days to 3 at roughly a tenth of the build cost. I stay close to the craft on purpose — I still write the specs, run the tests and read the numbers. A lead who loses touch with the work loses the ability to judge it, and judging it is most of the job.

LEADERSHIP & PROCESS

- **Team:** Led a 5-person distributed production pod — design, copy, visual — remotely across time zones · Two-week cycles of planning, grooming and retrospectives · Owned the timeline, the project plan and the delivery commitments
- **Process:** Rebuilt ad-hoc production into a documented workflow — intake, priorities, handoffs, QA gates · Onboarding and process alignment for new team members · Kanban and two-week sprints across design, copy and development
- **Stakeholders & Vendors:** Aligned R&D, engineering and BI so hypotheses were prioritized by business ROI against monthly targets · Briefed and managed agencies, freelancers, actors and editors, and held them to the standard
- **Enablement:** Delivered digital-communication training to 70–80 employees · Built the AI knowledge bases the team writes on — tone of voice, permitted and forbidden phrasings, content and design-system rules

CRAFT & SYSTEMS

- **Creative & Content:** Positioning · Messaging architecture · Landing page and quiz flows · Video end-to-end — trend research, scripts, casting, editor briefs · Performance-creative iteration · A/B testing with statistical significance · CRO · Funnel optimization · Cohort analysis · GA4, Tableau
- **AI & Automation:** GenAI workflow architecture (Claude Code, Lovable) · Retrieval-Augmented Generation (RAG) over design-system, content and tone-of-voice knowledge bases · Agent-based QA gates & LLM output validation · Event specification & telemetry QA · Prompt engineering · Python & Java

WORK EXPERIENCE

TripleTen | Nebius Group

EdTech & Consumer Digital — U.S. market; Israel market through 2024 | 01/2022 – Present

Growth Product Manager | *01/2024 – Present*

- **Pod Leadership & Process.** Inherited ad-hoc production and a team pulling in three directions. Built the workflow, the cycle and the QA gates, and got R&D, engineering and BI to prioritize hypotheses by business ROI against monthly targets. Output went from unpredictable to 2–5 tested releases a month.
- **Claude Agent for Web Page Delivery — Built & Owned.** Built the agent pipeline that carries a page spec to production on its own: build, a QA regression gate that blocks any failing release, telemetry and data-layer validation, design-system token enforcement, then automated deploy with CRM sync into HubSpot. **~10x lower build cost; spec-to-production 14 days → 3 days**, sustaining 2–5 A/B tests per month across up to 5 concurrent funnels.
- **Paid Acquisition Funnel — Owner.** Ran 10 depth interviews pairing live ad creative with the landing page; found the value proposition buried below the fold and rebuilt the experience around decision clarity without loosening the qualification threshold. **+18.5% conversion to qualified lead on Meta and TikTok traffic (p < 0.01).**
- **Flagship Career Quiz — Owner.** Owned the core B2C acquisition funnel end-to-end. Shipped 7 structured A/B tests on entry micro-commitments, visual hierarchy and CTA framing: **start rate 41% → 48%**, with no drop in completion or qualification.

Product Marketing Manager — Website & Web Funnel Owner | *01/2022 – 01/2024*

- **Video Production — Lead.** Owned video end-to-end: trend research, running the brainstorms, writing the scripts, casting the actors, briefing the editors and iterating on the creatives that performed. I ran the chain and the people in it.
- **Website Ownership — 01/2022 to Present.** Owned the company website across both roles as a product surface — page roadmap, requirements, release scope, QA and production handoffs — as the single point of decision on what shipped. Led two-week sprints across design, copy, development and outside vendors.
- **Platform Migration.** Led the site's migration from Tilda to WordPress end-to-end across internal teams and agencies, and led the development process itself.

Copywriter → Project Manager, Content & Marketing / Product Owner

Renaissance Life Insurance · FinTech / InsurTech, Moscow | 05/2019 – 07/2021

- **From writing to leading.** Joined as a copywriter and grew into leading content and marketing projects — what the company said, to whom, and why. Launched the company blog end-to-end, from content planning through publication automation.
- **0-to-1 Product Delivery.** One of two product owners taking two insurance products from concept to launch — an early fully-online whole life insurance product in the Russian market, and a first-of-its-kind offer for people with HIV.
- Ran 20+ hypothesis-driven experiments on product, messaging and funnel; delivered digital-communication training to 70–80 employees.

EDUCATION & CERTIFICATIONS

- **Practical Software Development (Java & Python)** — Masa / Tel Ran, Israel | 2025
- **B.A. Communications & Media** — Moscow State Pedagogical University | 2014–2018
- **Business Intelligence Professional** — Google | 2026 · **AI Essentials Specialization** — Google | 2026
