ALEXANDRA MIRON

Product Manager · Consumer AI Products & Experimentation

Be'er Sheva, Israel • +972 55-269-1864 • miron.alexandrra@gmail.com • linkedin.com/in/alexandramiron8 • portfolio-alexmir8.vercel.app

ABOUT ME

Product Manager with 7+ years in B2C, building the AI systems a consumer product runs on. Built and own an agent pipeline that carries a page from spec to production behind a QA gate deciding what the agent releases alone and what a person reviews, plus the retrieval-backed knowledge bases that hold tone of voice and permitted and forbidden phrasings. Concept-to-live 14 days → 3, build cost ~10x lower. Ran the research and experimentation behind it: +18.5% conversion to qualified lead (p<0.01) and quiz start rate 41% → 48%.

CORE COMPETENCIES

- **Growth & Experimentation:** A/B Testing & Statistical Significance · CRO · Funnel Optimization · Hypothesis Design · Cohort Analysis · Activation & Qualification Metrics
- **Product Ownership:** PRDs · User Stories · Backlog Prioritization · CJM · Lead Scoring & Routing Logic · Cross-Functional Pod Leadership
- **AI & Automation:** GenAI Workflow Architecture (Claude Code, Lovable) · Retrieval-Augmented Generation (RAG) over design-system, content and tone-of-voice knowledge bases · Agent-Based QA Gates & LLM Output Validation · Prompt Engineering · Python & Java
- **Research & Analytics:** User Interviews · Usability Testing · Event Specification & Telemetry QA · GA4 · Tableau

WORK EXPERIENCE

TripleTen | Nebius Group

EdTech & Consumer Digital — U.S. market; Israel market through 2024 | 01/2022 – Present

Growth Product Manager | *01/2024 – Present*

- **Claude Agent for Web Page Delivery — Built & Owned.** Built the agent pipeline that carries a page spec to production on its own: build, a QA regression gate that blocks any failing release, telemetry and data-layer validation, design-system token enforcement, Core Web Vitals, then automated deploy with CRM sync into HubSpot. **~10x lower build cost; concept-to-live 14 days → 3 days**, sustaining 2–5 A/B tests per month across up to 5 concurrent funnels.
- **Paid Acquisition Funnel — Product Owner.** Ran 10 depth interviews pairing live ad creative with the landing page; found the value proposition buried below the fold and rebuilt the landing experience around decision clarity without loosening the qualification threshold. **+18.5% conversion to qualified lead on Meta and TikTok traffic (p < 0.01).**
- **Flagship Career Quiz — Product Owner.** Owned the core B2C acquisition funnel end-to-end. Shipped 7 structured A/B tests on entry micro-commitments, visual hierarchy and CTA framing: **start rate 41% → 48% (+7.0pp absolute)**, with no drop in completion or qualification.
- **Lead Qualification & Routing.** Job seekers wanting immediate employment were flooding the funnel and consuming sales capacity. Built Boolean intent flags into quiz logic and a scoring tree routing misaligned users to an automated nurture track; quantified the sales-efficiency cost through cohort analysis. Live sales calls reserved for the cohort that converts.
- **Pod Leadership & Process.** Led a 5-person distributed production pod (design, copy, visual) remotely across time zones, through two-week cycles of planning, grooming and retrospectives. Replaced ad-hoc production with a documented workflow — intake, priorities, handoffs, QA gates — and aligned R&D, engineering and BI so hypotheses were prioritized by business ROI against monthly targets.

Product Marketing Manager — Website & Web Funnel Owner | *01/2022 – 01/2024*

- **Website Ownership — 01/2022 to Present.** Owned the company website across both roles end-to-end as a product surface — page roadmap, requirements, release scope, QA and production handoffs — as the single point of decision on what shipped. Wrote the specs and led two-week sprints across design, copy, development and outside vendors.
- **Lead-Generation Flows.** Structured lead-gen pages and flows around clarity and user progression; owned the copy layer end-to-end — landing pages, quiz copy, UX microcopy, CTA and objection-handling sections.
- **Platform Migration & Development.** Led the site's migration from Tilda to WordPress end-to-end across internal teams and agencies, and led the development process itself — specifying, building and shipping pages with Claude.

Project Manager / Product Owner, Acceleration Team

Renaissance Life Insurance · FinTech / InsurTech, Moscow | 05/2019 – 07/2021

- **0-to-1 Product Delivery.** One of two product owners taking two insurance products from concept to launch — an early fully-online whole life insurance product in the Russian market, and a first-of-its-kind offer for people with HIV.
- Ran 20+ hypothesis-driven experiments to validate product, messaging and funnel ideas, partnering with development to refine the client account funnel.
- Built landing pages in Figma and Tilda/Wix/Webflow; delivered digital-communication training to 70–80 employees.

EDUCATION & CERTIFICATIONS

- **Practical Software Development (Java & Python)** — Masa / Tel Ran, Israel | 2025
- **B.A. Communications & Media** — Moscow State Pedagogical University | 2014–2018
- **Business Intelligence Professional** — Google | 2026
- **AI Essentials Specialization** — Google | 2026
